## K. E. M. HOSPITAL (POONA)

The report of the King Edward Memorial Hospital and Sardar Moodliar Charitable Dispensary, Poona, for 1942-43, bears ample testimony to the good work which both these institutions are doing in bringing relief to suffering humanity. About 38,000 outdoor patients were treated at the dispensary, while the maternity hospital claimed more than 2,000 patients. The hospital, which was started with 12 beds in 1912, has now 65 beds. It has also a septic ward. The hospital is being expanded by adding another ward, the foundation of which was laid by Lady Lumley in January last.

Both the Dispensary and Hospital are run with the aid of Government and municipal grants and donations from the public. The funds are still inadequate to meet the growing needs of the institutions and the management, while extending their thanks to all the donors, appeal to the public to help the institutions in a general measure.

MOSCOW, August 18: Hitler has raced up 100,000 German shock troops and several motorised divisions to Kharkov in the last 24 hours. These fresh reinforcements are fighting furiously to save the situation there. For the second day in succession, German Panzers and the Luftwaffe have tried to regain their grip on their lost lines of communication running west from Kharkov. The Germans have counter-attacked again and again along a six to nine mile front in a bid to free these communications. After battles lasting several days in the Germans weakened by very heavy losses were forced back beyond their initial positions.

"Red Star" reports the Soviet air force is making monster bombing attacks on the railway running south from Kharkov and is placing the Germans at a disadvantage. Other Soviet forces are to-day within 12 miles of the Briansk hedgehog.—Reuter.

It authorises the withdrawal of Unions Contract rights, including dues and collection by employees and the withholding of priorities on war contracts from employers. The action has been taken under the Conally Smith Act and speculation has arisen here whether the War Labour Board would cite Mr. John Lewis, President of the United Mine-workers and the United States Gypsum Company as principal non-compliers with the decisions.—Reuter.

# Cry For Relief From Stricken Bengal

## WOMEN AND CHILDREN DIE IN STREETS DUE TO STARVATION AND EXPOSURE

CALCUTTA, Aug. 18.

**"Anxiety is increasing regarding the fate of millions of people, particularly women and children, who are to-day homeless and destitute due to the terrible famine conditions in Bengal", says the Calcutta Branch of the All-India Women's Conference in an appeal issued to-day.**

It adds: many of the victims are women, and quite a large number are children. They are dying in the streets to-day, as they are unable to fight their way through malnutrition, starvation and exposure.

"The Commissioner of Police, Calcutta, in recent communiques, has drawn our attention to the arrangements that were being made by him to remove dead bodies from the streets as fast as possible. He has also pointed out that there has been a large increase in the number of stray children in the streets. Many of them have been abandoned by parents unable to support them. This is a new social problem and demands public attention. The Food Minister has also stated that the months of September, October and November will be even more critical than the present."

The branch appeals for financial assistance in relief work to all in India who are in a position to help. It intends opening food and cloth distribution centres and milk kitchens in various wards of the city and suburbs and has already opened one for homeless women and children. The branch also appeals to those who are willing or able to do so, to adopt any of the poor orphaned or abandoned children, or to undertake the maintenance of such children at rescue homes by financial contributions.—A.P.

## No Ceiling For Newsprint

### Hydari Says Govt. Has No Stocks And Shortage Is Acute

BOMBAY, Aug. 18.

Ceiling of prices of newsprint was urged by Mr. Amritlal D. Sheth, President, Indian Languages Newspapers' Association, at a tea party given on behalf of the Association to meet Mr. M. S. A. Hydari, Secretary, Industries and Civil Supplies Department, Government of India, to-day. At the last meeting of the Newsprint Advisory Committee, the Association was informed that the question of ceiling was dropped. Mr. Amritlal, however, thanked Mr. Hydari for his assurance that the question would be further examined and expressed the hope that prices would be ceiled without further delay. He explained that though newsprint could not cost more than Rs. 0-4-6 per lb. dealers were charging Rs. 0-7-6 per lb. and thus small newspapers were hard hit. He suggested that a dealer might be allowed Rs. 50 as profits per ton and not Rs. 400 per ton, which he was now making.

In regard to the submission of audited figures of the circulation of the newspapers, Mr. Amritlal suggested that the two classes of newspapers should be asked to furnish the auditors' certificate, namely, those who consumed above 75 tons of newsprint a year as also those who consumed above 10 tons a year. He pleaded that presses that consume less than ten tons of paper per year might be exempted from audit.

In regard to the distribution of newsprint, Mr. Amritlal requested Mr. Hydari that licences for importing newsprint should be given to the Press as well. He expressed himself strongly against what he called a monopoly given to the dealers and hoped the 'status quo' would be maintained.

An assurance that he would consider sympathetically the difficulties of the small press and especially those of the Indian Languages Papers in regard to the supply of newsprint was given by Mr. M. S. A. Hydari.

Mr. Hydari deplored that in certain cases newspapers had obtained large quantities of newsprint, some of which had found their way to the black market.

*In regard to the ceiling of prices of newsprint, Mr. Hydari doubted if any immediate step could be taken in that direction because Government had no stocks of newsprint and the shortage was indeed so acute that, they had to decline stocks to the military.*

He hoped that shipments that had been made in Canada would, on their arrival substantially ease the situation in India.—A.P.

### Hydari's Talks With Krishnaraj Thackersey

Mr. M. S. A. Hydari, Secretary, Civil Supplies and Industries, Department, Government of India, discussed matters arising out of the Cloth Control Scheme with Mr. Krishnaraj M. D. Thackersey, Chairman of the Textile Control Board, on Wednesday.

# *India Must Figure In Quebec Talks*

## AMERICA-INDIA LEAGUE'S LETTER TO ROOSEVELT: RAJAJI'S PROPOSALS IN BRITISH PRESS

(FROM A SPECIAL CORRESPONDENT)

LONDON, August 18.

**A suggestion that the Indian problem be discussed during the forthcoming Quebec Conference is understood to have been made in a personal letter signed by Mr. J. J. Singh, Miss Clare Luce, Louis Fischer and Miss Pearl Buck to President Roosevelt sent by the America India League. It is also understood that the Sikh Community from British Columbia are sending a deputation to Quebec for representing India's case before President Roosevelt and Mr. Churchill.**

## RAIDERS OVER BRITAIN & BERLIN

LONDON, August 18.

Nine enemy aircraft were destroyed during the night—six in raids on Britain and three near their bases in enemy occupied territory, it is officially stated.

Last night German aircraft were over parts of eastern and south-eastern England, mainly near the coast. Bombs were dropped at scattered points causing a little damage and some casualties.

It is learned that about 50 raiders took part in last night's scattered raids on Britain which were the most extensive for some time past. Bombs were dropped at six places in south-east England and in parts of eastern England. Little damage and some casualties were reported.

**BERLIN BOMBED**

An Air Ministry Communique states: "Last night aircraft of the Bomber Command made a heavy attack in bright moonlight on the research and development establishment at Peenemunde, 60 miles north-west of Stettin. The establishment is the largest and most important of its kind in Germany. The first reports indicate that the attack was well concentrated. A number of enemy aircraft were encountered along the route. Several of these were destroyed.

'Mosquitos' bombed objectives in Berlin.

Fighter Command intruders carried out many attacks on airfields and railway targets in France, the Low Countries and north-west Germany. Four enemy aircraft were destroyed.

Forty-one bombers and one fighter are missing.

**RAIDERS REACH BERLIN**

The German News Agency said: "Raiders reached Berlin last night", and Allied bombers formations attacked places on the German north coast.

The German claim that 30 planes were shot down, suggests operations in strength. American military observers are reported as convinced that the lengthening nights will see an even greater tonnage dropped on the German capital than on Hamburg.

BERNE: The all clear was given in the provinces of Como and Milan shortly after 2 a.m., to-day. No bombing has been reported in that region although the sound of multi-engined aircraft was heard. Anti-aircraft did not go into action but Italian night fighters went up.

CAIRO: Great oil fires belching dense black smoke, 1,000 feet into the air, were started at Tortorella aerodrome near Foggia in Southern Italy during the American 'Liberator' bombers' daylight raid yesterday. Fires were started among barracks, workshops and administration buildings at San Nicola aerodrome. Fighter and anti-aircraft opposition was extremely heavy, groups of 20 to 60 fighters attacking at a time. The crews of most of the eight 'Liberators' lost were seen to bale out safely. The Axis lost 43 fighters.

## The Half-Column By "Dim"

In Yesterday's Half Column I used the word Hindustan as opposed to Pakistan. I find that is the wrong use of the term because Hindustan stands really for India as a whole. 'Vis-a-vis' Pakistan the right term should have been Hindudom. Hindudom implies the land of orthodox and communal Hindus as opposed to Hindustan which covers all people within its borders from time immemorial. I think we will be able to refute Mr. Jinnah's plea for Pakistan better if we coin and use the word "Hindudom". Even an Anglo-Indian contemporary like the "Times of India" used this term in a recent Current Topic.

"Plague in Poona" is a headline from the "Sentinel" of yesterday. This has nothing to do with racing.

I am surprised that Government have appointed an Indian to be the Governor of the Reserve Bank.

They could have got a Czech or a Pole or a Refugee, if they couldn't get an Englishman. But why an Indian? It is really unfair that, at a time like this, the Government of India should encourage Indians. Mr. Amery's feelings should have been considered. After all when you want a Chief Justice, you get him all the way from across the seas.

The shop stewards of the Napiers Aircraft Works representing hundreds of workers have sent to Mr. L. S. Amery, Secretary of State for India, a resolution which stated: "Recoghising the global nature of the War this Committee urges the immediate opening of negotiations with the Indian people for formation of an Indian National Government so that the masses of India may play their part in the war of liberation."

*Mr. C. Rajagopalachari's proposals for ending the deadlock, particularly his scheme of a provisional national government for the present Executive Council is published in the "Manchester Guardian." Interviewed, Mr. Sorensen and other Labour M.P.'s suggested that Lord Linlithgow, even at this late hour, should do the sane and proper thing by releasing Mahatma Gandhi. Pandit Jawaharlal Nehru and Maulana Abul Kalam Azad, scrap the present unrepresentative Executive Council and have a National Government composed of representative political elements.*

## CITY MARKETS

Bombay, Aug. 18.

SHARES: The local market was featureless without any important business. Absence of enthusiasm and cautious attitude on the part of operators are responsible for inaction of the market. Century Shares are attracting some speculative buying but old bulls are liquidating. Steel Shares are also offered in small lots and even Dyeings found not demand. Thus the market continues hesitant awaiting fresh developments. Century Shares are passing in strong hands while the rest of the list was quiet with scattered selling. Tata Steel Dfds. opened at Rs. 1,860 and declined to Rs. 1,846 while Ordinary Shares were quoted at Rs. 373. Bombay Dyeings opened at Rs. 1,950 and eased off to Rs. 1,941. Century Shares opened at Rs. 795 and after declining to Rs. 791 improved to Rs. 796, Kohinoors opened at Rs. 586 and declined to Rs. 583.

There was heavy selling in gold and prices recorded a break. Ready G Rs. 69/8, delivery Rs. 68/12, Sovereigns Rs. 50/8, Ready Silver Rs. and delivery Rs. 107-12

## If You Go Away...

If you or anybody in your house goes away from Bombay for more than seven days, report the fact to your Ward Rationing Office. And don't draw rations for that period.

It is an offence not to report such departures. It is an offence to draw rations for an absent person. It is also anti-social to do either of these things, which must tend ultimately to reduce the ration for everybody.

If you know anybody guilty of such offences, send a confidential report to the Controller of Rationing.

## VALUABLE SUGGESTIONS

In his two latest pronouncements Mr. C. Rajagopalachari has made several important suggestions to those who can contribute to the solution of the present deadlock; and all the suggestions deserve to be considered seriously. One of these is that Indians should make a fresh and united declaration "to disabuse the British mind of the wrong assumption that nationalistic India was ever pro-Axis." The suggestion is made because some non-Indians have been misled about the exact position of Gandhiji and the Congress by the vile propaganda against them at the very time he and Congress leaders are imprisoned and effectively prevented from replying to the charges levelled at them. So long as such a state of things lasts counter-propaganda may not avail against the ways of those who have more resources and more power to regulate propaganda abroad. But a good purpose will be served if responsible persons like Mr. C. Rajagopalachari, Sir Tej Bahadur Sapru, Mr. Srinivasa Sastri and Dr. M. R. Jayakar issue a manifesto quoting freely from the latest Congress resolutions and Gandhiji's speeches, all calculated to intensify the campaign against the enemy. As freedom of India is essential to such intensification it is those who withhold it that weaken the campaign. This point needs to be emphasized in the manifesto suggested by us and in every statement issued by leaders on this subject.

The most important suggestion made by Mr. Rajagopalachari is that Mr. Jinnah should ask the Viceroy to be allowed to see Gandhiji. He gathers from his interviews with Gandhiji during the fast that he is now more likely than ever before to come to an understanding with Mr. Jinnah. This is most probable and it was for that very reason that Gandhiji wrote to Mr. Jinnah. But will Mr. Jinnah respond to the suggestion or merely repeat what he said when the Viceroy refused to forward to him Gandhiji's letter? We agree with Rajaji that Mr. Jinnah's attitude then was "a tragedy of the first order." Let us hope he will not repeat the tragedy.

Will the Viceroy allow Mr. Jinnah to see Gandhiji? Rajaji has grave doubts about this. Referring to Gandhiji's letter about meeting Mr. Jinnah, Rajaji says: "I have reasons to believe that great things would have ensued from the contemplated meeting. This was realised by the Viceroy." The Viceroy will realise this again and do again what he has often done before. And as regards the Government of India, Rajaji has reason to be bitter and say: "There is no limit to Governmental error." But he expects that "it will be very difficult for the British Government" to refuse Mr. Jinnah's request. There is no doubt that a good step forward towards a settlement will be taken if either Government release Congress leaders and resume negotiations or if, in the first instance, Mr. Jinnah insists on meeting Gandhiji. We can only hope that both will now at least rectify their tragic blunders of the past.

## After Sicily

With the fall of Messina the Sicilian campaign has ended and the whole of the island is now in Allied hands. Two things have to be noted in this connection. Only three German divisions were in action there and they used the demoralised Italian troops well enough to resist the Allies for thirty-eight days. Secondly, the great bulk of the Axis forces has managed to escape to the mainland despite Allied air and naval superiority. The situation, however, is somewhat different now from the point of view of further operations. To invade Sicily the Allies had to operate from bases over a hundred miles from the island. Now Sicily, on the doorstep of Italy itself, is the base. And the Italians are even more demoralised than before. They are, in fact, in a state of suspense between war and peace.

An immediate invasion of the Italian mainland is, therefore, possible. And if the Axis are to be believed the invasion is imminent, too. It is, of course, desirable also; for, otherwise, the Germans and the Italians will get a valuable respite in which to prepare for the Allied attack. But that will not solve the problem of the Second Front. An Allied invasion of Italy can only become an anti-Hitler front if something like a million German troops get gradually involved in it which is not likely. The "knock out blow" will, therefore, have to be delivered elsewhere.

## FRANKLY SPEAKING

### MacArthur's Blows

Since the capture of Munda General MacArthur's forces had not been much in evidence. But in the last three or four days they have struck a number of shrewd blows of noteworthy importance. The first was the bomber raid on Balik Papan in Dutch East Indies which is claimed to have destroyed several valuable oil refineries. The second was the capture of the island of Vella Lavella which outflanks the Japs in Kolombagara thus making its capture less difficult. With the New Georgia group of islands firmly in American hands, Rabaul can be more easily attacked from the air. The third blow is the surprise raid on Wewak in New Guinea in which the Japs lost 175 planes and some 1,500 flying personnel. This is, indeed, a "crippling blow", and all the more so because of the limited and dwindling resources of Japan. But these blows do not alter the fact that a general offensive against Japan if started from the south-west Pacific will be a long and tedious island hopping affair. What they do prove is that America and Britain have now sufficient resources to start a general large scale offensive from Burma.

### Racial Favouritism

Replying to questions in the Central Assembly about the Women's Auxiliary Corps, the War Secretary stated last week that on July 1, 1943, out of a total of 604 officers in the corps 307 were Europeans, 65 Anglo-Indians, three Anglo-Burmans and 27 Indians. Of a total of 5,614 auxiliaries there were 1,543 Europeans 2,382 Anglo-Indians, 156 Anglo-Burmans and 1,175 Indians. The number of Indians is unconscionably small, particularly among the officers. Nor can this be wholly explained by the common plea that Indian women are not as eager to serve in the Corps as are women of other communities. The glaring discrepancy cannot but give rise to the suspicion of racial favouritism. The War Secretary said, with more naivete than sense of humour, that the Corps was open to all British subjects. It is something, that Indians can apply for admission to the corps. But evidently the selection depends upon a variety of circumstances. Will the War Secretary state how many of the European and Anglo-Indian Officers in the Defence Forces and in the other services have relations in the Women's Auxiliary Corps?

### Partial Contradiction

Contradicting the report that a large consignment of rice has recently been exported from Calcutta to South Africa, a Government press note states that "except for a consignment in January last of 2,000 tons of rice for the Persian Gulf, there have been no other exports of rice from Calcutta whatever." The contradiction admits of the possibility of exports, from a place other than Calcutta, or removed first from there to the port from which it was shipped abroad.

# No Proselytising Activities In Educational Institutions

## Bombay Senate Reiterates University's Fundamental Policy

**A resolution affirming the fundamental policy of the University which is "not to permit, in any educational institution, conducted by or affiliated to it, any activity which has for its object the conversion of students from one religion to another" was passed by the Senate of the Bombay University at its meeting on Wednesday. Mr. B. J. Wadia, Vice-Chancellor presided.**

At the outset the Vice-Chancellor referred to the death which had occurred recently of Major C. Fernandez, a dermatologist and professor in the Grant Medical College for 30 years.

**THREE DONATIONS ACCEPTED**

He then announced that Sir Homi Mehta had offered a sum of Rs. 7,00,000 for research in Chemistry in the Department of Chemical technology. He made it clear that it was not intended to start any new institute or department and that Sir Homi only intended that the donation should be utilised for the promotion of research in chemistry in the University Department of Chemical Technology.

The Senate also accepted the donation of Rs. 1,00,000 from Messrs. Bhalabhai J. Dalal and Premchand K. Kotawala. Trustees of the estate of the late Rao Bahadur Poonamchand Karmachand Kotawala for starting and maintaining a Department of Paints, Varnishes and Plastics under a competent Reader to be appointed by the University, also in the department of Chemical Technology. One of the conditions of the offer is that the Department should be started as early as possible and within six months of the termination of the war at the latest.

The Senate also accepted yet another offer of an annual grant varying from Rs. 16,800 to Rs. 23,400 made by the Council of Scientific and Industrial Research for the establishment of a Department of Dyestuff Technology in the University.

It is gathered that the Department has been set up and has already started working. In this connection the Senate approved of a supplementary grant of Rs. 15,884 which is recoverable from the annual grant of the Council of Scientific and Industrial Research, Delhi.

Dr. A. S. Erulkar and Mr. G. I. Patel were declared elected to the Syndicate. Prof. G. S. Mahajani and Prof. T. A. Kulkarni were declared elected to the Academic Council.

**SOPHIA COLLEGE EPISODE**

Dewan Bahadur K. M. Jhaveri moved that the report of the Committee appointed by the Syndicate on the proposal for the disaffiliation of the Sophia College for Women, Bombay be approved. This proposal was brought forward by Mr. K. T. Shah in a letter for the reason that he had gathered that the conversion of a girl barely 18 years of age had taken place in the college. The proposal was considered by the Syndicate in November 1942. A Syndicate committee held an enquiry and after examining the principal of the institution called for an assurance that no proselytising activity will be carried on in the college or by the members of the staff. This assurance was given in clear terms. The Syndicate then reported that the assurance should be accepted.

**MOTION FOR REFERENCE BACK**

When the resolution came up before the Senate on Wednesday, Mr. K. T. Shah moved that the matter be referred back to the Syndicate. He stated that although the assurance given by the principal was observed in the letter it was being broken in spirit. He alleged that attempts were still being made to convert non-Christian girls. He stated that one of the girls who was in danger of being converted last year and who was removed from Bombay had been approached on her return by a young lady who had already been converted. He had the authority of the father of the girl to state that she was about to be converted last Sunday, but the mother had again intervened and taken her out of Bombay.

Prof. A. Soares rising to a point of order said that University was not a body with a roving commission. It was bound by Statute and according to the Statute the question of disaffiliation could not be raised on such an issue.

The Chairman pointed out that the point of order did not arise as the question of disaffiliation was not before the House.

Th motion for reference back was carried.

The affiliation of the Pratapsing College of Commerce and Economics, Baroda, was extended to the B.Com. degree course from June 1943.

**NO CONVERSION ACTIVITIES**

Mr. K. T. Shah then moved his resolution a recommended by the Syndicate stating that the Senate thought it desirable to affirm the policy of the University with regard to conversion activities.

Moulvi M. Y. Haindaday seconded and Justice M. C. Chagla and Prof. Ajwani supported the resolution. Prof. A. Soares and Rev. John McKenzie opposed it. Principal V. K. Joag and Dr. D. R. Gadgil wanted it to be referred back to the Syndicate. Sir Vithal Chandavarkar opposed the resolution and the reference back and wanted the question to be settled on a straight vote. Father Dhur and Dr. B. G. Vad also opposed reference back.

Those in favour of the proposition generally argued that in a country like India where men and women of several faiths lived together it was necessary to avoid anything which might affect the spirit of concord and amity between the communities. Those who opposed the resolution generally argue that it was an infringement of the right of the individual to decide for himself what religion he chose to follow.

The motion being put to vote was carried by 36 votes against 26. On a poll the result was confirmed 39 voting for and 25 against.

# "GOVERNOR-GENERAL CAN'T CONVICT PERSONS"

## *Arguments In Sind 'Habeas Corpus' Case Against Validating Of Special Court's Sentences*

KARACHI, Aug. 18

At the resumed hearing of the 'Habeas Corpus' applications before the Full Bench of the Chief Court of Sind, the counsel for applicants continuing his argument drew a distinction between the Legislative, Judicial and Executive functions and said that it was not open to the Governor-General to impose a sentence himself as the effect of the present ordinance in question must be deemed to be. It was open to the Governor-General to create courts and to endow them with jurisdiction but it was not open to him to sit as if he were a court of appeal and impose sentences which could not possibly take effect. He added that the validating of a sentence implied validating of the conviction as well. If the conviction was validated, it would go counter to the decision of the Federal Court, which had declared all such convictions to be illegal.

*It was not within the legislative competence of the Governor-General to override the decisions of the Federal Court in this manner.*

*The counsel pointed out that the Government of India Act definitely gave to the Governor-General the power to legislate in respect of preventive detention; it did not confer any power upon the Governor-General to himself impose a sentence.*

The argument had not concluded, when the Court rose for the day.

**ALLOW "HINDU" TO RESUME PUBLICATION**

The Executive Committee of the Sind Journalist Association met this afternoon and passed a resolution condemning Government of India's action in refusing permission to the "Hindu", a vernacular daily, to resume its publication. It requests the President of All-India Newspapers Editors' Conference and the Information Member, Government of India, to right the wrong done to the paper."—A. P.

**NO "PRIMA FACIE" CASE, SAYS MAGISTRATE**

BOMBAY, Wednesday.

Further evidence was recorded today in the case in which Shashikant C. Kadakia, a Ph. D. student of the Bombay University stands charged before Mr. G. A. Sabnis, Presidency Magistrate, Girgaum Court, Bombay.

It is alleged that in a raid on flat in Krishna Nivas, Walkeshwar, on Jan. 14 police found a cartload of bombs, etc.

Deputy Inspector, Gawde, attached to the Crime Branch, C.I.D. gave evidence.

The Police Prosecutor submitted that a *prima facie* case was made out because the evidence showed that the accused had the key of the flat in his possession, which meant that he was in possession of the flat and its contents. The Magistrate observed that it was only a symbolic possession and that an accused person would not be convicted for such a possession. He therefore felt that so far no *prima facie* case was made out against the accused.

Further hearing of the case was adjourned till Thursday.

Mr. C. B. Velkar the Police Prosecutor conducted the case on behalf of the prosecution, while the accused was defended by Mr. Sankalchand Shah and Mr. Madhusudan Vyas.

### That Amending Ordinance Again!

NAGPUR, August 17.

Dissenting opinions were expressed by the Judges while deciding the Habeas Corpus applications filed before the Bench of the Nagpur High Court consisting of Messrs. Justices Digby and Bose. Justice Digby holds that the Amending Ordinance regarding Rule 26 of the D.I.R. is 'intra vires' of the Governor-General, while Mr. Justice Bose holds the same as 'ultra vires.'

In view of the dissenting judgments the case will now be referred to a third Judge.—United Press.

# ALLIED POST-WAR ECONOMY

LONDON, Aug. 18.

The President of the United States Chamber of Commerce Mr. Eric Johnston, speaking in London said that while Americans overwhelmingly had no inclination to try to revise British economic or political methods in the international field, they did not intend to revise their own. The Americans, he said, want to start with the situation as it is, and then see what co-operation between Britons and Americans is possible. "Undeveloped regions of the world want American and British capital, but they want to mingle it with capital and representation of their own." He added Mr. Johnston said that he would like to see "better and better customers all over the world". As the objective between the British and United States business, America had more capital, but Britain had more knowledge and management of capital internationally in the mazes of credits, currencies and exchanges. The two should be pooled, so that the capital employed should be private free and competitive capital.—Reuter.

## Assembly Debates Delhi University Bill

NEW DELHI, Aug 18

Muslim and Minority representation in the University services was discussed at Great length during second reading of the Delhi University Bill in the Central Assembly to-day.

Earlier in the morning, discussion became livelier when Mrs. Renuka Ray, speaking on an amendment for the elemination of the system of nomination for women on the executive Council of the Delhi University expressed disapproval of the dilatory tactics of certain parties in the House. Mrs. Ray said that although she herself was a nominated member of the House, she had been nominated for a definite and specific purpose of expressing women's point of view on the Hindu Inheritance Bill. She asserted that women in India were opposed to the system of nomination and she would either like to have women co-opted by the Executive Council or elected by a special constituency of women registered graduates from all parts of India.

The Assembly discussed eight amendments all of which were rejected. The Assembly adjourned till tomorrow.—A. P.

## Congress M.L.A.s Boycott Frontier Assembly

## Punjabis In Bombay

In your yesterday's issue "A Lonely Punjabi" complains that he cannot find any association or club representing Punjabis in a cosmopolitan City like Bombay. For his information I may say that there are a few associations representing Punjabis in Bombay although their existence is seldom known to many people because very few occasions rise for coming in the public eyes. One of these associations well-known in business circles is the Punjab and Frontier Association of Kalbadevi Road, Bombay. I am sure if "A Lonely Punjabi" contacts any of the members of the above association he will very often find himself in genuine Punjabi atmosphere.

As regards clubs, to the best of my knowledge there are a few, but they seem to have become individual Punjabi concerns. I suggest to "A Lonely Punjabi", that he may lay the foundation of one such club of the Punjabis in which every Punjabi resident of Bombay may be roused to take keen interest and I may assure him that my services whenever required in the matter will be at his disposal.

## Gunners Beat Chicos By 2—0

The contest between the Gunners and the Chicos in the first round of the Hinrich's Memorial Shield on Wednesday was of a colourless variety. A smart shower of rain just before the commencement of the game made the ground very slippery. The Gunners won by two goals to nil. Both goals were registered in the initial period by Higgins left back and Roseborough, the first being from a spot-kick.

*A penny for your thoughts*

Travelling over miles of railway track do you give a thought to the nuts and bolts in the fishplates? Little things these, but of great importance, for without them safe effectual joints could not be made. The building of ships, tanks, guns, bridges and a thousand and one other things is made possible today by rivets, screws, nails, nuts and bolts. To withstand strain and vibration they must be accurate and immensely strong and it is precisely in this field that our products have made their mark.
